## SANTA MONICA CHOOSES H<sub>2</sub>ORANGE<sub>2</sub> AS ONE AND ONLY APPROVED CLEANER

H<sub>2</sub>Orange<sub>2</sub><sup>™</sup> Concentrate 117, the industry's first hydrogen peroxide-based multi-purpose cleaner, has been chosen by the City of Santa Monica as the primary cleaner for use in the City's municipal buildings in seven different categories. H<sub>2</sub>Orange<sub>2</sub> Grout-Safe<sup>™</sup>, a low toxicity tile and grout cleaner, has also won approval in four bid categories. H<sub>2</sub>Orange<sub>2</sub> Concentrate 117 and H<sub>2</sub>Orange<sub>2</sub> Grout-Safe were the only products chosen to fulfill the contract categories from a field of eight environmental products. The contract, which was awarded through the Environmental Programs Division, City of Santa Monica, to Envirox, L.L.C. distributor Royal Paper Corporation in Santa Fe Springs, Calif., is for three years.

Illustrating its cleaning versatility, H<sub>2</sub>Orange<sub>2</sub> Concentrate 117 was chosen as the preferred environmental product in the following categories:

All-purpose cleaner;  
Bathroom cleaner;  
Glass cleaner;

Cleaner/degreaser;  
Sanitizer/disinfectant; Floor care products, and Carpet and upholstery cleaner.

H<sub>2</sub>Orange<sub>2</sub> Grout-

Safe was chosen for use in the categories of: All-Purpose cleaner; Bathroom cleaner; Floor care products, and Carpet and Upholstery cleaner.

"Santa Monica is a pioneer in addressing environmental issues and purchasing programs," states Patrick Stewart, president of Envirox, L.L.C., manufacturers of H<sub>2</sub>Orange<sub>2</sub>. "Because of the city's standing in environmental circles, the recognition of H<sub>2</sub>Orange<sub>2</sub> through this contract is particularly rewarding. This contract further confirms through an environmental powerhouse the cleaning power and versatility of H<sub>2</sub>Orange<sub>2</sub>, as well as its environmental safety."

The H<sub>2</sub>Orange<sub>2</sub> products will be used by approximately 50 custodians in 30 municipal buildings throughout Santa Monica, including the world famous Santa Monica Pier, the Third Street Promenade, City Hall and all other city facilities including park and recreation buildings. "We are proud to assure the residents of Santa Monica and those who visit our city that the cleaning chemicals we use are safe to their health, and to the environment," Bruskotter adds.

H<sub>2</sub>Orange<sub>2</sub> Concentrate 117 and

H<sub>2</sub>Orange<sub>2</sub> Grout-Safe were the first hydrogen peroxide-based cleaners to earn Green Seal GS-37 certification under its Environmental Standard for Industrial and Institutional Cleaners. Green Seal, Inc., headquartered in Washington, D.C, is a non-profit organization that provides third party confirmation of the product's safety to workers, facilities and the environment.

Additionally, H<sub>2</sub>Orange<sub>2</sub> Concentrate 117 is the only hydrogen peroxide-based cleaner on the market that is EPA registered as a five-minute sanitizer-virucide-HIV-stat for hard surfaces and is rated by NSF International as A1, D1.
