

The Cycle of **Responsible** Disinfection

THE MYTH

"I can use one-step disinfectant and get the job done without cleaning"

THE REALITY

Even so-called "one-step" disinfectants usually instruct you to clean away debris and soils from the surface before applying the product!

A **Healthier** Way to Clean®

Use our environmentally-preferred, low-residue multi-purpose cleaners paired with your disinfectant of choice for real, responsible disinfection.
